CMS-10391 Methods for Assuring Access to Covered Medicaid Services Under 42 CFR 447.203 and 447.204

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. Title of Information Collection: Methods for Assuring Access to Covered Medicaid Services Under 42 CFR 447.203 and 447.204; Type of Information Collection Request: Extension of a currently approved collection; Use: Current regulations at 42 CFR 447.203(b) require states to develop an access monitoring review plan (AMRP) that is updated at least every three years for: primary care services, physician specialist services, behavioral health services, pre and post-natal obstetric services (including labor and delivery), and home health services. When states reduce rates for other Medicaid services, they must add those services to the AMRP and monitor the effects of the rate reductions for 3 years. If access issues are detected, a state must submit a corrective action plan to CMS within 90 days and work to address the issues within 12 months. Section 447.203(b)(7) requires that states have mechanisms to obtain ongoing beneficiary and provider feedback. A state is also required to maintain a record of data on public input and how the state responded to the input. Prior to submitting proposals to reduce or restructure Medicaid service payment

rates, states must receive input from beneficiaries, providers, and other affected stakeholders on the extent of beneficiary access to the affected services.

The information is used by states to document that access to care is in compliance with section 1902(a)(30)(A) of the Social Security Act, to identify issues with access within a state's Medicaid program, and to inform any necessary programmatic changes to address issues with access to care. CMS uses the information to make informed approval decisions on State plan amendments that propose to make Medicaid rate reductions or restructure payment rates and to provide the necessary information for CMS to monitor ongoing compliance with section 1902(a)(30)(A). Beneficiaries, providers and other affected stakeholders may use the information to raise access issues to state Medicaid agencies and work with agencies to address those issues. Form Number: CMS-10391 (OMB control number: 0938-1134); Frequency: Annually; Affected Public: State, Local, or Tribal Governments); Number of Respondents: 51; Number of Responses: 212; Total Annual Hours: 12,262.
